Reasons for sanctions:

- Alexander Lukashenko is the President of Belarus. He has held near absolute authority in his 26 years in power and maintains close control over the security apparatus of the State. This authority has remained in place since the 9 August 2020 Presidential election and he is ultimately responsible for the violence against protestors and journalists and the Lukashenko regime's campaign to repress civil society and democratic opposition, and undermine the rule of law, that has followed the disputed election result in Belarus. Lukashenko has not called out violence and has expressed support for security services. Alexander Lukashenko has therefore been responsible for serious violations of human rights, the repression of civil society or democratic opposition in Belarus, or other actions, policies or activities which undermine democracy or the rule of law in Belarus following 9 August 2020, and has been involved in promoting such activities.
- En tant que président de la Biélorussie disposant d'une autorité sur les organes de l'État, il est responsable de la violente répression menée par l'appareil d'État avant et après l'élection présidentielle de 2020, notamment du rejet des principales candidatures de l'opposition, des arrestations arbitraires et des mauvais traitements de manifestants pacifiques, ainsi que des intimidations et des violences à l'encontre de journalistes.
- President
- President of the Republic of Belarus.
- The Anti-Money Laundering Council (AMLC) Resolution No. 43-A dated 15 September 2006 regarding the Advisory Notice dated 10 April 2006 issued by the United States Department of Treasury's Financial Crimes Enforcement Network (FinCEN) warning all U.S. financial

institutions against a potential money laundering threat involving Belarusian President Alexander Lukashenko; other government senior regime elements and senior executives in state-owned enterprises; acting individually or through government agencies and associated front companies; who are purportedly seeking to move misappropriated Belarusian state assets as well as proceeds from illicit arms sales to or through the U.S. financial system.
